

JEYARAKAVAN JEYAKANDAN

Software Engineering | Full Stack Developer | AI/ML & Data Science Enthusiast

+94 74 004 5835 • jeyagandan74@gmail.com • [LinkedIn](#) • [GitHub](#) • Jaffna, Sri Lanka

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate at SLIIT Northern Uni, specializing in full stack web development, software engineering, and AI/ML. Experienced in building end-to-end applications using React, Node.js, Django, and Java, with hands on exposure to both relational and non-relational databases. Passionate about data-driven solutions and machine learning applications, with proven ability to take software from requirements to deployment independently and within teams. Seeking a Software Engineering role to contribute clean, scalable solutions across full stack and AI/ML domains while growing within a fast-paced, collaborative environment.

EDUCATION

BSc (Hons) in Computer Science

2024 to 2027 (Expected Graduation Year)

SLIIT Northern Uni

NVQ Level 4 Information Technology

January 2022 – December 2022

College of Technology Jaffna

Advance Level in Engineering Technology

2011 - 2021

J/ Kokuvil Hindu College

PROFESSIONAL EXPERIENCE

Intern Software Engineer

2025 Nov - 2026 May

HABB (PVT) Ltd

- Developed and maintained web application features based on stakeholder requirements, contributing to both frontend and backend implementation using modern frameworks.
- Designed and optimized database schemas and REST API endpoints to support core business workflows, improving data retrieval efficiency.
- Built internal reporting and dashboard modules, reducing manual data processing steps and enhancing operational visibility.
- Collaborated with design and backend teams in an Agile/Scrum environment, participating in sprints to ensure timely and on-spec feature delivery.

Internship – IT Technician

2022 Sep – 2023 Mar

University of Jaffna – General Administration Department

- Installed, configured, and maintained hardware and software systems, ensuring reliable IT infrastructure for daily administrative operations.
- Diagnosed and resolved technical issues, preparing incident reports and maintenance logs to support data-driven operational decision-making.
- Coordinated with administrative staff to gather technical requirements and deliver effective, timely IT solutions.

SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Figma (UI Prototyping)
Backend	Node.js, Java, Python, PHP, Django, REST API Development
Databases	MySQL, MongoDB, SQLite, Firebase (Firestore & Realtime DB)
Tools & Platforms	Git/GitHub, Visual Studio, Android Studio, Wamp Server, Microsoft Excel, Power BI
Project Management	Agile/Scrum, Sprint Collaboration, Team Coordination, Deadline Management
Soft Skills	Analytical Thinking, Problem Solving, Leadership, Adaptability

RELEVANT PROJECTS

AI Receptionist System | Group Project | Final Year Project | [GitHub Link](#)

Technologies: React, Django, PostgreSQL, MongoDB, Multi-Agent AI Architecture

- Designed and developed a full stack AI-powered receptionist system with a React frontend and Django REST backend, integrated with a multi-agent architecture for appointment booking, patient coordination, and automated data handling.
- Lead the project team by defining system architecture, coordinating sprint activities, managing technical documentation, and contributing to database design and backend workflow automation.

Patient Management System | Group Project | 2 months

Technologies: HTML, Bootstrap, Node.js, MongoDB

- Built a full stack web application using Node.js and MongoDB, with a responsive Bootstrap frontend to streamline hospital record management, appointment scheduling, and staff coordination.
- Gathered stakeholder requirements and translated them into system workflows, delivering an end-to-end solution covering user authentication, CRUD operations, and data reporting.

CSE Stock Analysis Android App | Group Project | 2 months

Technologies: Java/Kotlin, REST APIs, SQLite, MPAndroidChart, Firebase

- Developed a full-featured Android application integrating REST APIs and SQLite to collect, store, and visualise Colombo Stock Exchange data including financial ratios, price trends, and technical indicators.

FastTrack Logistics Automation System

Technologies: Java, Swing, MySQL

- Designed and implemented a desktop application with a Java Swing UI and MySQL backend to automate shipment tracking, driver assignment, and monthly reporting for a logistics company.

ACHIEVEMENTS

- Q4US Codeart Challenge (2025) – Winners
- SLIIT Codefest NETCOM (2025) – Merit Award
- Marketing Video Clip Competition (2025) – Winners
- SLIIT Codefest ALGOTHAN (2024) – Merit Award

LANGUAGES

Tamil (Native) • English (Professional Proficiency)

VOLUNTEERING

Scout – Sri Lankan Scout Association (2010 - Present)

- **Receive President's Award (2019)**
Awarded for exceptional community service and dedication — one of the highest honors in the Sri Lanka Scout movement.
